

Guide to identify affected units.

1. Verify that your condensate pump looks like the one on the image:

The product should look like this.

2. Check the name plate:

The name plate is located on the side of the unit

- 3.

The first two numbers indicate the production year (04 for 2004) and the last two numbers indicate the production week (week 49). This product with the number "0449" will have to be replaced.

4. The product needs to be replaced when the date indicates 0747 or older (week 47 in 2007).
